PROFILE SUMMARY

Experienced IT specialist and software developer with a strong foundation in modern Android development, relational database management, and IT technical support. Passionate about building high-quality, user-centric mobile applications and eager to leverage cutting-edge technologies in a professional environment.

WORK EXPERIENCE

Huzmh Edu, Android Developer

Rajab 1446 – Present

- Maintainer of the Huzmh Android project — a platform designed to streamline teachers' daily workflows.
- Oversaw two published Google Play apps: Teacher Package and Student Package.
- Resolved critical bugs and improved UX, leading to measurably higher customer satisfaction ratings.

Freelance, Android Developer

- Independently designed, developed, and published Sunnah in Weather on Google Play.
- First Islamic mobile app to track weather and provide Prophet's Sunnah reminders — peace be upon him.
- Managed the full development lifecycle including design, backend integration, and store publication.

Bayt Alebaa, IT Technical Support Intern

Rajab 1445 – Ramadan 1445

- Two-month internship focused on diagnosing and resolving hardware and software issues.
- Assisted in software installation, system configuration, and equipment deployment.

SKILLS

Android Development

- 1+ year of hands-on experience using modern Android development technologies (Kotlin, Jetpack Compose).
- Proficient in integrating REST APIs and third-party libraries efficiently and securely.
- Builds industry-grade, high-performance, and secure Android applications.
- Experience with Git and GitHub for version control and collaborative development.
- Firebase integration for authentication, real-time databases, and cloud messaging.

IT Support & Systems

- Installing, configuring, and maintaining operating systems and software.
- Deploying and troubleshooting hardware equipment in professional environments.
- Diagnosing and resolving hardware, software, and network issues.
- Managing cloud hosting environments including domain, SSL, and DNS configurations.
